AUTOMATED MANUFACTURING SYSTEMS

## ***ARC-10L CNC PTAW Welding Lathe*** ***Designed for cladding, hard surfacing and overlay applications***

- Real time display of weld conditions and system status
- All frequently used controls such as RUN/STOP and parameter override will be connected using dedicated switches rather than the keypad
- Real time override of width, arc voltage and amperage and powder feed rate
- Program control of current, voltage and powder feed rates. All welding variables are stored in memory
- Real time override of width, arc voltage and amperage and powder feed rate
- Multiple weld program storage
- NEMA 12 operator terminal for entry of all welding variables in a simple parameter list format
